PLANA

VIMAR
energia positiva

Plana. Essentiality as lifestyle.

Simplicity is a refined choice, like Plana: a rigorously Italian design and a wide range of combinations. Buttons and devices in white or Silver and a choice of 38 cover plates. A home automation system with more than 200 functions for comfort, safety and energy saving, enabling you to keep your entire house under control. Plana inhabits spaces in a bright and original way, but with a dash of essential design.

PLANA

Soft white or quicksilver.

White button to fit lightly into any room. Or Silver button for a touch of technological brilliance. Enjoy the freedom to choose from a wide selection of button and cover plate combinations: from the cool and crystalline colours of the Reflex version to the soft warmth of natural woods; from stylish metals to informal technopolymers. But the design is unique: essential, rigorously Italian, unmistakably Plana.

Plana
Essential design, white cover plate and devices.

Plana Silver
Hi-tech design, Silver cover plate and devices.

A home full of energy.

Light brings life and energy to the home. And Plana is there with you to light up every moment. Whenever you want to switch on, off or dim the lights. Whenever you are looking for a button and a luminous symbol reveals its location. Whenever you operate lights and appliances by remote control, from the comfort of your armchair. Plana is always there with you, day and night.

Modular buttons
Buttons and devices in one, two or three modules with symbols.

Light and comfort
Multifunction light control to activate lighting and automated devices.

Infrared receiver
For remote control of lights and automation systems.

A light in the dark.

Plana is always alert, even when you are sleeping. It lights up so you'll never trip in the dark. It points out obstacles and guides you in poorly lit areas. It switches on automatically whenever your hands are full. And in the event of blackouts it reacts immediately with lights and an emergency hand lamp, so you can find your way round the house and bring the situation back under control. That's Plana: always by your side.

Step marker lamp
Adjustable lamp for lighting pathways.

Emergency lights
High-efficiency LED for emergency lamps.

TORCIA, hand lamp
In the event of blackouts it automatically lights up and becomes a handheld lamp.

A pleasant climate, all the time.

Plana brings heat and harmony to your home, making everything easier and more immediate: getting up in the morning, planning the day, selecting the climate that you want. The electronic functions are intuitive and simple to navigate, just like the functions on a mobile phone, and make your home more comfortable. Timer-thermostats for setting the right temperature in summer and in winter. Timer-switches for controlling automation systems. Alarm clocks for wake-up calls.

Timer-thermostat
Self-guided browsing and simple control for the ideal climate.

Timer-switch
On/off programming of lighting and electrical appliances.

Multifunction light control.
So many different functions in a single light control.

Keeping you safe and sound at all times.

With Plana, safety and security systems are always active. And you always have peace of mind. The burglar alarm monitors for intruders by means of presence detectors and perimeter alarms, while the control panel allows for simultaneous or individual surveillance of up to thirty different areas. Water leaks, gas leaks and blackouts are all under control. Even socket outlets are protected by safety devices in the event of power surges.

Methane gas detector
Constantly monitors for leaks and, in the event of danger, emits an audible warning and shuts off the gas supply.

Burglar alarm system
Protection throughout the entire home, with individual programming of up to thirty different areas.

All-round safety
Protected socket outlets for the safety of people and home appliances.

Tomorrow’s home today.

Plana takes you into the future, as you will realise the moment you step through the front door: the control panel welcomes and introduces you to home automation. Compact, simple and intuitive, it functions as both a simple video entry phone and the nerve centre of the automation system. Simply press to activate the video entry phone or internal video surveillance system. Browse the home automation menu using just a few buttons, in much the same way as on a mobile phone.

By-me home automation control panel
The heart of the By-me home automation system. It is also a video entry phone with the option of video surveillance.

home automation

All at your fingertips.

With Plana, you simply touch the colour screen with your finger to display the rooms and select the desired status of each one of them: activate a lighting scene, modify the temperature of an area, check current power consumption or manage your alarm system. The display is fully customisable, so you can faithfully reproduce the architecture of your home automation system. All at your fingertips.

By-me touch screen
Monitor your entire home: simply push a button to control lights, climate, burglar alarm and automated devices.

On request
With symbols chosen from the custom library available in the catalogue.

Or customised
With symbols created and supplied by the customer.

Button symbols
Buttons available with laser-engraved symbols, either standard or customised.

The beauty of metal.

Bronze, blue, green and metallic silver. Nickel and pearl silver. Brushed aluminium or antique brass finish. The quality of the materials and the essential design, combined with white or Silver button.

The warmth of solid wood.

The light, almost white tones of maple. The blended red and amber of cherrywood. The fine grain and strong fibres of pear-wood. Three ways to be Plana.

The freedom of colour.

Plana is synonymous with freedom, right down to the technopolymer cover plates. Colours to suit every taste. Finishes to suit every interior. And a single design: Plana.
