

NEVE UP

**Designed for you**  
Not just in white

**It's also  
smart**

## **NEVE UP.**

A good choice for  
any residential, hospitality  
and office spaces.

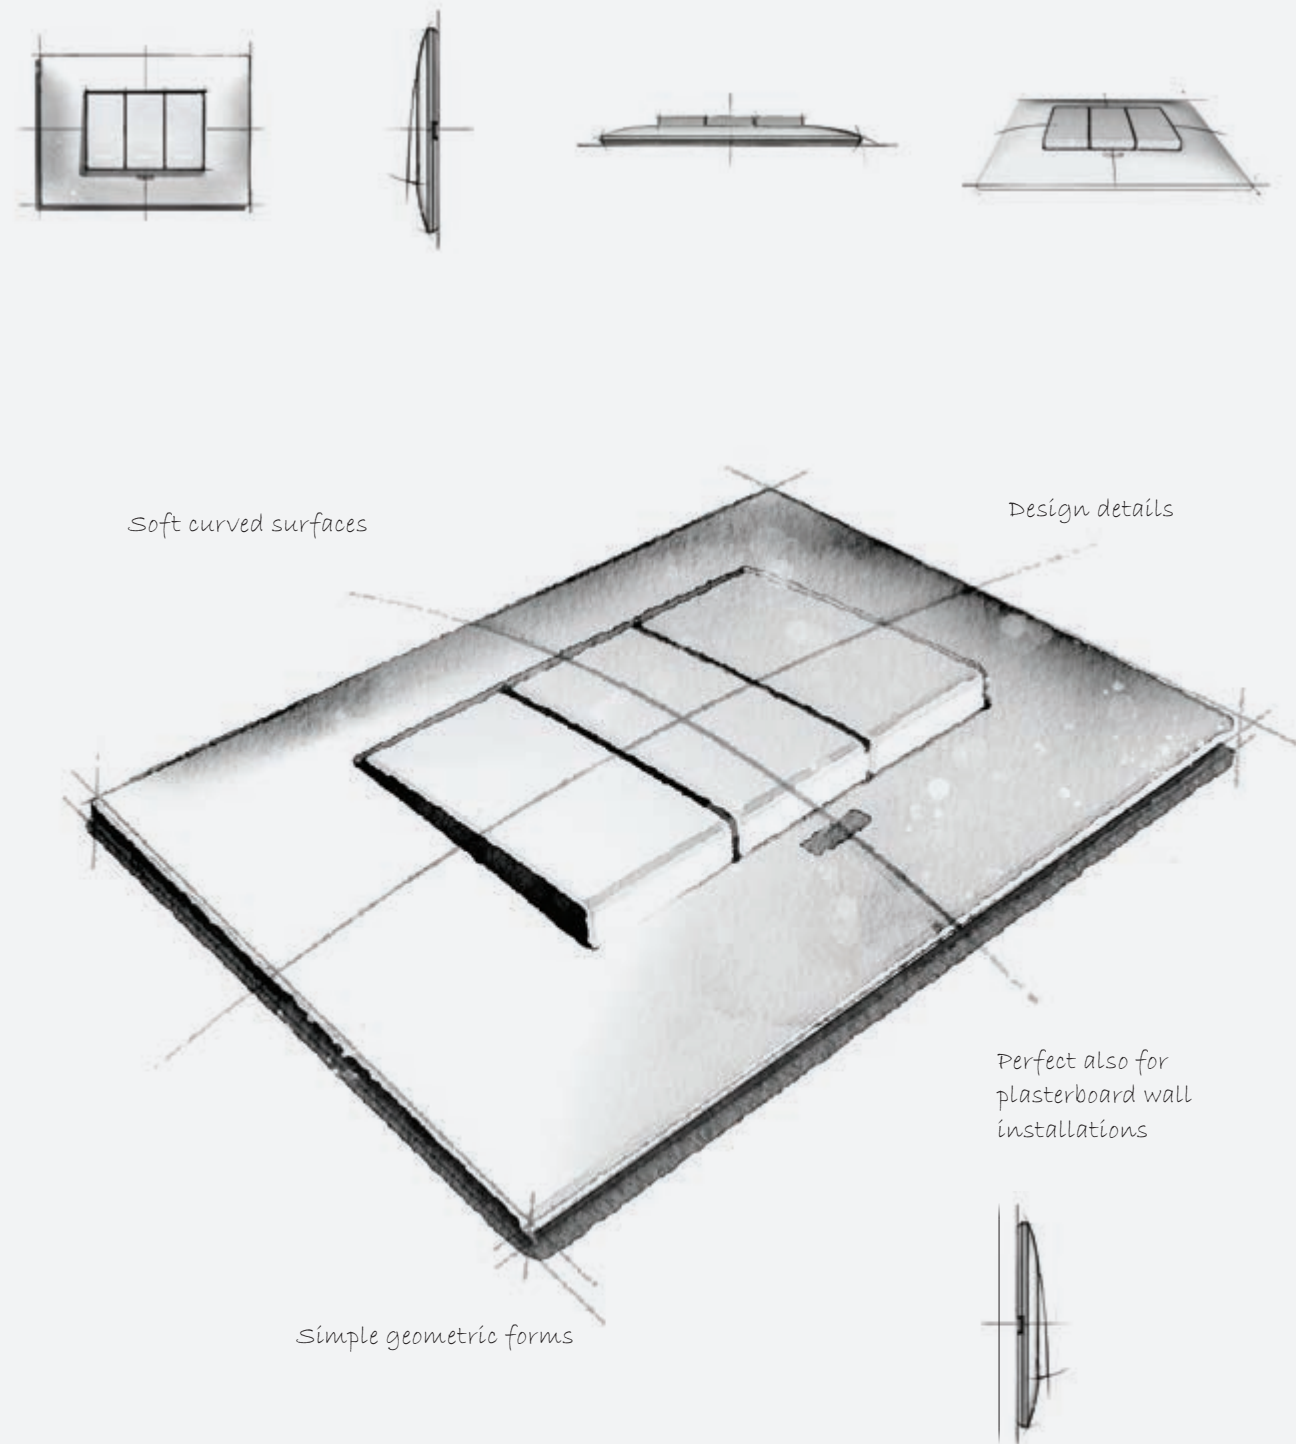

- > Simple lines, modern shape
- > Affordable quality with Italian design
- > Versatile and modular range
- > Renovations, upgrades, new buildings
- > New opportunities. It's up to you

**NEVE UP. A new recognizable design.**  
to guarantee full functionality, quality, security  
and easy installation.

NEVE UP

## NEVE UP. Black or white?

**We have designed a comprehensive system** that allows you, with the flexibility of its modular system, to have more opportunities to create or upgrade your best-fit electric installation.

## Choose the Total Look style

**Total Look - White**  
**Total Look - Carbon matt**

A unique style, total look in white and black of the carbon matt colour switches, all perfectly coordinated. Same colour for cover plates and switches.

NEVE UP is bright white but not only white!

NEVE UP has **new finishes**: from **glossy** basics to **matt** and **metal**. **12 finishes** to combine to the white and carbon matt switches.

# NEVE UP. New enriched versatile range & multistandard.

We have redesigned NEVE UP to accommodate the various requirements in various different countries: an extensive and versatile range of devices in all international standards, available for both Italian/US and French/German standards.

## Modular and multi-modular solutions (Italian/US standards)

Thanks to the different modularity of the devices: 1, 2 or 3 modules to install them up to 7 modules cover plates.

3 blank modules

1 central module

2 separate modules

2 central modules

3 modules

4 modules

7 modules

## Multigang solutions (French/German standards)

Multi-module cover plates even with dedicated distance between centres of the French/German standard installations.

1 central module

2 modules

2+2 modules

2+2+2 modules

2+2+2+2 modules

## NEVE UP. Easy tips for an advanced and connected smart installation.

### Easy installation in just a few steps.

If you have to build or renovate an area of the home or an entire dwelling, store, restaurant, office and in those situations where masonry work and repainting tasks need to be kept to a minimum. Enhance the value of the property and improving life for those who live there.

Thanks to the wireless connectivity, you can control and manage lights, roller shutters, room temperature and energy consumption levels, simply from your smartphone or naturally using your voice directly.

# NEVE UP is also smart.

Spaces simply become connected

**Traditional electrical systems become smart:** update, extend or replace your wiring system. Simply replace traditional switches in the existing system with new connected devices by Vimar and power them: 2-way switches, roller shutter and curtain actuators, actuators for connected socket outlets, equipped with Bluetooth® wireless technology and Zigbee®.

**View Wireless is ideal for new buildings, renovations or for boosting the functions of an existing system** and it is a useful means of support for the elderly and people with restricted mobility.

**RELAY MODULE WITH DOUBLE TECHNOLOGY**

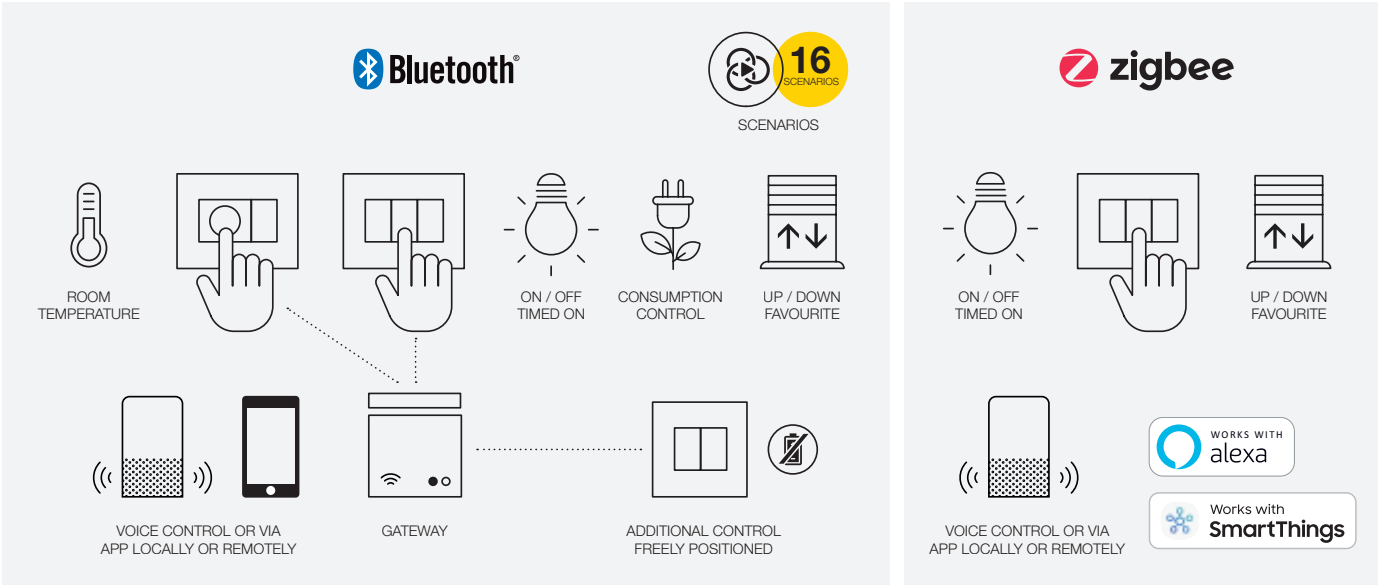

- for the control of all types of lights;
- for roller shutters and blinds (even with slat orientation).

**GATEWAY FOR DIN RAIL**

The Bluetooth® wireless technology enables to use the device in mesh system where the gateway permits the system control by the user via View app, locally or remote control and integrate it with all the main voice assistants via cloud: Siri, Amazon Alexa and Google Home.

Now with **SMARTPHONE** and **VOICE CONTROL** you can keep everything under control

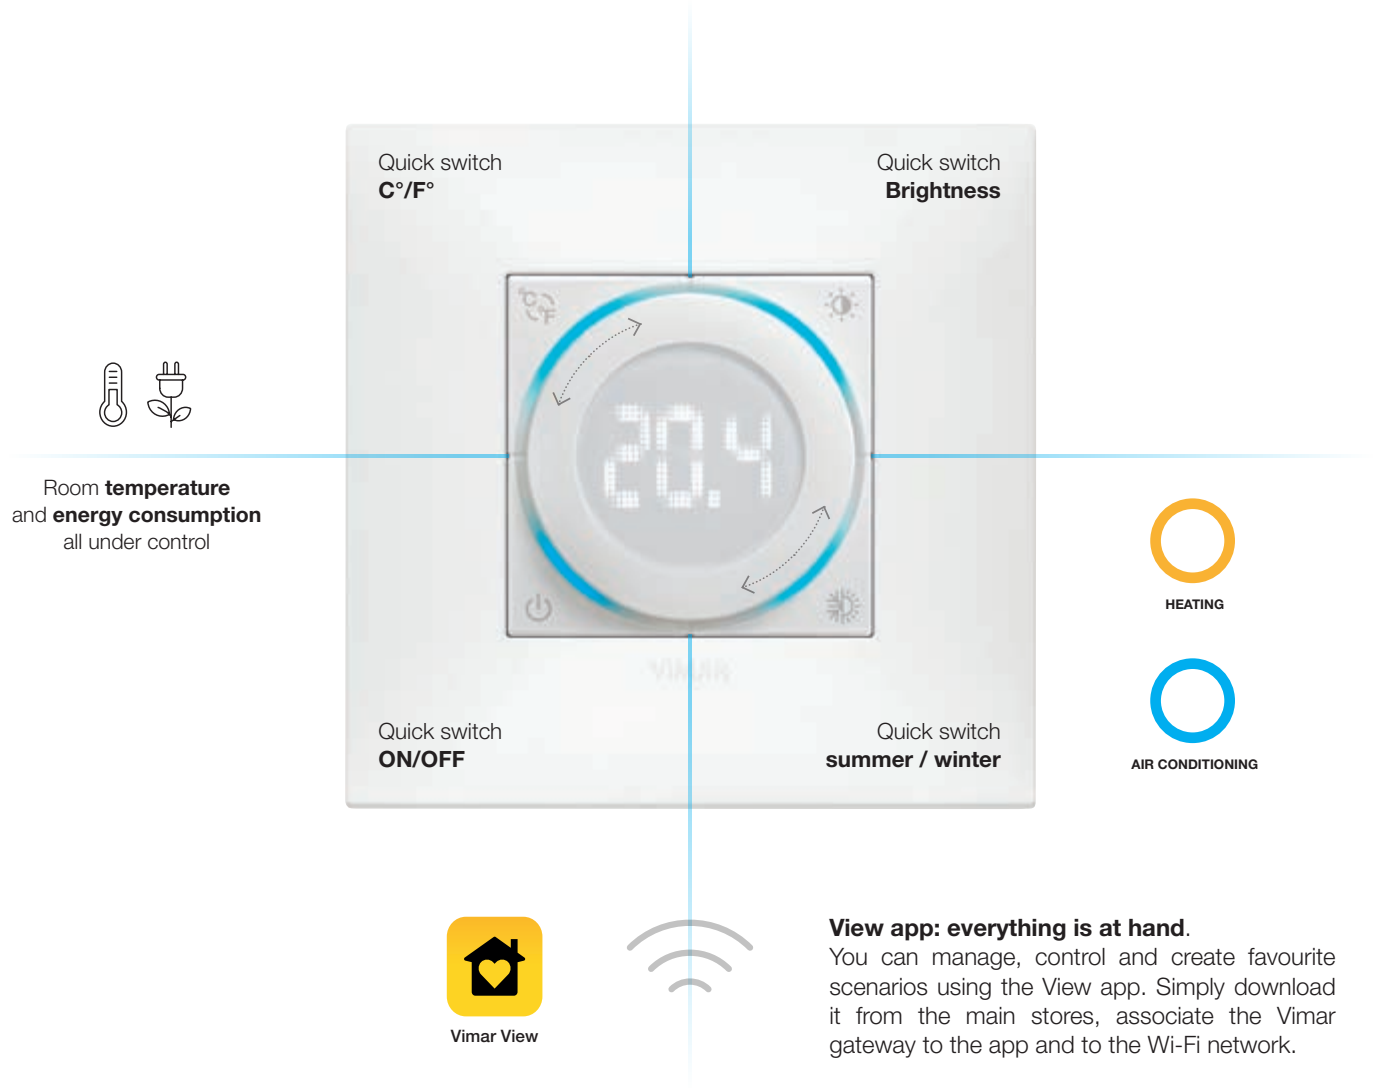

# NEVE UP thermostat.

It's smart and simple to control the temperature of your spaces.

**Connected dial operated thermostat** for management of the room temperature, it integrate the control of lighting, roller shutters and manage the consumptions, even in remote control by View app ot by voice control. Sleek design in a super-easy-to-use thermostat, a dial to adjust the temperature, 4 preset button for ON/OFF, °C/°F, summer/winter mode selection and display brightness adjustment.

- Available in black and white version.
- Intuitive, minimal and modern interface with backlit LED display.
- Convenient predefined rapid: ON/OFF, change of unit of measure, brightness adjustment, summer/winter change or programmable command.
- Without the need for a connection to a network, a **stand alone** version is also available.

## NEVE UP with QUID.

### Innovative for controlling lights and rolling shutters

Our expertise dedicated to traditional systems brings to life an innovative with easy and intuitive installation that evolves wired systems for maximum functionality and reliability. A simple solution for the control of lighting and roller shutters, ideal at the doorway, on the bedhead of a hotel, in commercial areas, homes and working places.

quid+

#### QUID for lights. Innovative and silent magnetic relay.

**Central control.** QUID offers the possibility of realizing a centralized shutdown control. It gives the opportunity of shutting down all lights with just a gesture. Furthermore, the presence of a pilot light reveals if the lighting is active in any other connected point.

**Silent.** Differently from the standard electromechanical devices, the change of status turns out to be more silent, thanks to Vimar patented magnetic relay.

**Safe.** If the push button remains active, the relay does not overheat because there is no electricity after the change of status.

**Energy saving.** It does not consume energy with the lights off for energy saving and respect for environment

#### QUID for roller shutters. Innovative electronic switch.

**Centralized control.** The new switch, on wired systems, supports the possibility of automating curtains or roller shutters and enabling group control, with disconnection of the load at the end and memorizes the favourite position.

**Reliable and safe.** It switches off the power at the end to avoid the motor to be in voltage and to be damaged.

PATENTED  
VIMAR

# Easy and comfortable solutions for the home and the office.

## STAND ALONE THERMOSTAT

Dial operated thermostat, a sleek design in a super-easy-to-use thermostat. A dial to adjust the temperature, 4 preset button for ON/OFF selection, °C/°F adjustment, summer/winter mode selection and display luminosity adjustment.

## UNIVERSAL DIMMER

2-wire universal dimmer to control and adjust all types of load, LED and CFL included, with minimum intensity adjustment to avoid flickering of the lamp.

## EMERGENCY LAMP

The emergency lamp comes on in the event of a blackout to guide you safely in the dark.

## USB SOCKET OUTLETS

The type A USB charger has now been supplemented with the type C one, the new technological standard used to power and charge latest-generation devices. Ideal in hotel rooms and offices.

## INFRARED 1-WAY SWITCH

Without touching the 1-way switches with your hands, the infrared motion sensor 1-way switch turns the lights on and off only at night when someone passes by. Ideal for optimising electricity consumption levels and to avoid contact with the lighting device.

Easy and comfortable solutions **for hospitality.**

**THE BEST TEMPERATURE EVERYWHERE**

The optimum climate control by means the programmation of the 7 days per week temperature, it is very easy and a clear display helps you to change the setting anytime and even from smartphone and tablet.

**TRANSPONDER CARD SWITCH**

This switch, placed inside the room of a B&B or a small hotel, activates all services when the guest is present.

**SHAVER SUPPLY UNIT AND CORD OPERATED PUSH BUTTON**

In B&B or in a small hotel, they have to be installed, the shaver supply unit with 20 VA isolating transformer, for electric razors supply of 230 V and 120 V and for the safety of the guests a cord-operated push button in the bathroom.

**SPECIAL PUSH BUTTONS**

The Do Not Disturb and Please Clean push buttons facilitate the communication between guest and service staff of the hotel, for the guest comfort and quietness.

**A FULL RANGE OF DATA AND POWER SOCKETS**

Wide range of power sockets, from German to French standard, from Italian and American ones. Data sockets, USB data ports and TV-RD-SAT, they all guarantee fast and safe connection to a high quality standard.

## NEVE UP. Opportunities for you

**We are a team of professionals** who provide expert support and customized global solutions for automating, connecting and monitoring the entire building while assuring total aesthetic coordination of all visible devices.

**vimar.com** - our on-line service platform, available 24/7. Vimar's know-how at your fingertips.

**Navigate the on-line catalogue**, a detailed database of all our codes with technical drawings, instruction sheets, and product photos.

Go to the **download section** and choose your language:

- **Dedicated catalogues** and **brochures** of our product range, systems and solutions.
- **Video** tutorial section, also available on You Tube channel.

From the homepage go to the **News** to keep yourself updated and to **References** to see our latest **Projects**.

### NEVE UP packaging solutions.

The packaging cases uses GD2 cardboard, consists of 90% recycled fibre and it is 100% recyclable. Moreover, the graphic printing is water-based and the colours are made with vegetable oils.

# NEVE UP Free to change.

Flexible modular system installations.

Thanks to the many mounting frames available, ranging from 1 up to a maximum of 7 or 2+2+2+2 modules, control devices and socket outlets sized 1, 2, 3 modules, many solutions can be found for all installation needs. The lighting switch can be completed with the cover plate in the colour and material of your choice.

2 modules

3 modules

**Customization and backlighting**  
Backlit and customized switches are available both in white and carbon matt colours, to easily locate the switch and immediately know its function.

**Modular devices**  
Combinations with 1, 2 and 3 module devices on 3 module mounting frames.

COVER PLATES + INTERCHANGEABLE SWITCHES + MOUNTING FRAME

**Add and change functions over time, depending on your specific living needs.**

2+2 modules

2+2+2 modules, vertical use

2+2+2 modules, horizontal use

90°  
Multigang switches can be used horizontally or vertically depending on specific needs of the space.

## NEVE UP is quality for a quick and easy installation. We take care of every detail

### Your installation, it's easy to fit.

Installation is made easier thanks to the mounting frame with interlocking teeth that provide strong and reliable fixing for each single device and allows perfect alignment between switches to create a tidy and visually pleasing stylistic effect. The devices are fixed front-on to the mounting frame, allowing work on the installation at any time without having to remove the mounting frame from the box.

### Improved electrical load transmission

The use of noble metals such as silver for the terminal contacts makes the conduction of the electrical load easier, hence lowering the operating temperature of the contacts making the switch last longer.

### Screw terminals

The metal plate in the terminals is curved: a Vimar refinement allowing different cross section wires to be held in place when clamped even at the same time. Secure fastening is assured for both signal circuit cables with cross-section 0,5-2,5 mm<sup>2</sup> and power circuit cables with cross-section 1,5-2,5 mm<sup>2</sup>.

### It's easy and flexible to upgrade over time

- Front clamping system for an easy mechanism installation when the support frame is already installed on the wall
- Specially designed terminal blocks prevent the mechanism to be put under strain when the screw is overloosened, allowing a power drill to be used for tightening and loosening the screws without damaging the mechanism

### Perfect alignment of buttons on the mounting frame

The stiffness of the mounting frame along with the small production tolerances provide the required dimensional accuracy to guarantee perfect aligned rockers. The special structure also makes it possible to compensate for the thickness of the mounting box for plasterboard, guaranteeing the perfect fit of the cover plate with the wall.

## Perfect styling result, even on plasterboard walls

### NEVE UP is the ideal on plasterboard.

The special structure of the mounting frame affords an attractive flush-fit effect, where the cover plate blends in seamlessly with the wall. In installations on plasterboard walls, it also covers the protrusion of the mounting box perfectly.

Mounting features

Dimensions: 299x86x8,5 mm

Cover plates and controls customisation

Cover plates: customisation positions

(see area in grey)

Example of customised cover plate

Controls and buttons: positions and features

Type	Customisation position*	Backlit customisation	Not backlit customisation
1-module controls and interchangeable buttons		NO	The entire button area can be customised
Lightable 1-module controls and interchangeable buttons 09021.N and 09021.N.CM		NO	positions 1 and 2
Lightable 1-module controls and interchangeable buttons 09021.G and 09021.G.CM		position 3	positions 1 and 2
2-module controls and interchangeable buttons		NO	The entire button area can be customised
Lightable 2-module controls and interchangeable buttons 09022.N and 09022.N.CM		NO	positions 1, 2 and 3

\* when position is not indicated, the customization is possible in the whole area of the button/control

Indications for customisation

- all devices, buttons and cover plates are customized depending on conditions described below;
- if the required customisation is including in the 'Library of standard symbols and wording', indicate the item code + symbol/wording code, **if the customisation is not included in the table check its feasibility with the sales network.**
- the **visible in darkness** customization is possible only in symbol engraved buttons and with diffuser (e. g. 09021.G and 09021.G.CM).

The few limits of technology

- it is not possible to reproduce coloured images.

What to supply

- an image in EPS or DXF format of the subject to be reproduced, minimum line width and minimum distance between lines: 0.5 mm.

How to proceed

- deliver all the documentation to your area wholesaler/distributor, who will then forward it to Vimar.

Library of standard symbols and wording (♦ symbols already on product catalogue visible in darkness)

Smart card customization

The rear of the card can be customised on request, by providing a digital image of the subject in eps, tiff or jpg format.

# Beauty. Energy. Life

Since 1945 our energy is driven by passion and are engaged in supporting the evolution of living styles. The heart of our company, where we create, design, manufacture and test all our products, is in the North East of Italy. We continue manufacturing here at Marostica: from materials to shapes, colour combinations to electronic processes, we are distinguished by quality, style and technology that speak our language all over the world. A long tradition and history of success, a culture based on solid and true values.

**Research. Technology. Simplicity**

To ensure the best of technology and design, 6% of our annual turnover is invested in R&D. This has allowed us over the years to lodge more than 180 patents worldwide, reflecting the attention of the great innovation like the little details that make every day life more simple and comfortable. We firmly believe that new ideas are created to be shared.

**Taking care of the process**

Our manufacturing cycle is characterized by low environmental impact. We recycle 60% of the plastic material waste and most of the metal. We only use water-based paints or UV curing. We are replacing the electroplating bath with the innovative and more environmentally friendly MSD process that eliminates any type of harmful emissions.

**SICURY patent**

On 15 March 1968 we patented our idea for the SICURY shutter, an essential device for ensuring the safety of electrical systems and protecting sockets, by preventing users from making involuntary contact with live parts. And since we firmly believe that new ideas are created to be shared, we decided to grant all the operators in the industry the right to use our patent free of charge, making SICURY a market standard that has been making the lives of children and their parents a little safer for the past 50 years.

**Energia Positiva.** Insieme
