7-INCH AND 10-INCH TOUCH VIEW DEVICES

The smart heart of the home
that connects comfort,
security and design.

New Touch View.

Sleek, elegant and discrete.

Much more than mere displays, the new **Touch View** devices combined a **slimline and elegant design** with **state-of-the-art technology**, and become a **smart control point** to supervise all Vimar systems **while adapting to any environment**.

ULTRA SLIM

8.5 mm

LED SIGNALLING FOR NOTIFICATION WARNING

A single display that speaks your language:

clear, user-friendly widgets to make every gesture simpler.

The **new widget interface** is designed to offer a unique user experience where every action becomes smooth and immediate. Information is organised intuitively and controls are always within reach: an advanced visual environment that blends aesthetics and functionality, transforming system control into a simple and natural activity.
