We need functional,
long lasting objects.

Design: simple lines, contemporary flavour.

Fashions change, continuously. But, today more than yesterday, we feel the need to be less fickle, and more concrete. We surround ourselves with simple, current and long-lasting objects, like Arké: designed in the present, for the future.

LARGE PROPORTIONS.
Large sized surfaces that underline shapes and materials.

TWO DESIGNS.
Arké Classic: rigorous and linear.
Arké Round: soft and sinuous.

CONVEX BUTTONS.
A pleasant feeling ergonomic shape, only slightly perceptible to the eye, accompanies the controls.

FINISHES AND COLOURS.
Materials selected to last, colours chosen in harmony with contemporary style.

ARKÉ APPEARS.

Two designs inspired by the principle of simplicity: the cover plates are divested of all superfluous decoration, defining a new energy model. Arké Classic: rational shape, linear profile and clean corners. Arké Round: sinuous surface, slightly curved with soft corners.

ARKÉ CLASSIC. Matt blue.

ARKÉ ROUND. Blue.

ARKÉ CHANGES.

Two button and control versions: the natural elegance of anthracite grey and the luminous soberness of white. Arké can be dressed in the colours that best suit your home, with no limits to the possible combinations, for an integral or two-tone look.

Anthracite grey buttons, Classic cover plate, matt graphite.

White buttons, Round cover plate, matt polar.

ARKÉ DISPLAYS.

Materials selected according to criteria of resistance and modernity. Produced with attention to the typical finishes of Italian made goods. Treated with eco-friendly processes, co-moulding with excellent finish, wear-proof painting. And associated to a wide range of colours, allowing you to choose the combination that suits your living space.

METAL-COLOR - VARNISHED METAL

Cover plates in painted zamak, a particularly resistant material that gives Arké an even more technological appearance.
In six different varnished colour variants, to make colour a key feature.

Classic - 01 Matt graphite

Classic - 02 Matt slate

Classic - 03 Silver

Classic - 04 Matt titanium

Classic - 05 Matt pearl

Classic - 06 Polar

Round - 21 Matt graphite

Round - 22 Slate

Round - 23 Matt silver

Round - 24 Matt bronze

Round - 25 Matt pearl

Round - 26 Polar matt

METAL-ELITE - REFINED METAL

Another version of processed zamak: the PVD treatment maintains the features of the material and increases its chemical and physical resistance. In four exclusive colour shades.

Classic - 07 Gold

Classic - 08 Brushed inox

Classic - 09 Black chrome

Classic - 10 Black nickel

Round - 27 Gold

Round - 28 Chrome

Round - 29 Dark nickel

Round - 30 Matt nickel

ALU-TECH - ALUMINIUM

Modern and technological, deep-drawn aluminium underlines the contemporary flavour of this range.
In two colour shades that enhance its texture: natural and lava.

Classic - 15 Aluminium

Classic - 16 Lava

WOOD - SOLID WOOD

Warm, strongly material cover plates: five different types of solid wood chosen for their finish, luminosity and natural qualities.

Classic - 41 Wengé

Classic - 42 Cherrywood

Classic - 43 Larch

Round - 51 Walnut

Round - 52 Cherrywood

Round - 53 Maple

REFLEX PLUS - REFLEX

A shiny material with a special icy effect. Six colours: from the full-bodied caramel and deep blue to the lighter shades of sage and smoky grey.

Classic - 61 Smoke grey

Classic - 62 Caramel

Classic - 63 Orange

Classic - 64 Marine blue

Classic - 65 Sagegreen

Classic - 66 Ice

Classic - B66 Ice
(with white frame)

Classic - 67 Ivory

Round - 61 Smoke grey

Round - 62 Caramel

Round - 63 Orange

Round - 64 Marine blue

Round - 65 Sagegreen

Round - 66 Ice

Round - B66 Ice
(with white frame)

Round - 67 Ivory

COLOR-TECH - PAINTED TECHNOPOLYMER

Technopolymer with a special painted finish. Makes the colours shine with elegant brightness.
The energy of red, green and blue, the preciousness of gold and silver.

Classic - 75 Matt red

Classic - 76 Matt blue

Classic - 77 Matt green

Classic - 78 Matt gold

Classic - 79 Matt silver

Round - 85 Red

Round - 86 Blue

Round - 87 Green

Round - 88 Antique gold

Round - 89 Silver

TECNO-BASIC - TECHNOPOLYMER

A simple, strong material, with satin finish for Classic cover plate that Arké associates with elegant yet sober neutral colours.
From black to white, passing through the warmer shades of grey and ivory.

Classic - 71 Black

Classic - 72 Grey

Classic - 73 Ivory

Classic - 74 White

Round - 81 Black

Round - 82 Grey

Round - 83 Ivory

Round - 84 White

Life demands
simple, responsible
gestures.

Functions: intuitive technologies, evolved performance.

No waste: a principle that is changing our lifestyles. This is why we choose objects that help us to optimise our time and our energies. Like Arké: reliable and precise, with functions and controls that make our everyday gestures easier.

CONTROL FUNCTIONS.

Lighting, climate, security, entertainment, communication: special devices control and supervise every activity.

AXIAL CONTROLS.

Modern, reliable technology, for buttons that represent a further variant to traditional controls.

BACKLIGHTING.

The buttons are back-lit by LED technology and the night&day symbols clearly indicate the functions.

UNIVERSAL DIMMERS.

Latest-generation controls to adjust the intensity of LED and low consumption (CFL) lights, to combine savings and comfort.

MODULAR VIDEO DOOR ENTRY SYSTEMS.

A function that can be included in the electrical system to communicate with the outside world, rapidly and effectively.

ARKÉ CONTROLS.

Switch on a light, open a door, lower a shutter: everyday actions that Arké makes more pleasant and immediate. Thanks to the precision of its axial controls; the clarity of the night&day symbols that indicate the various functions, the LED backlighting. Different types of controls for practical management, like the infrared remote control. And extended modularity that guarantees the fullest installation freedom.

CONTROLS FOR EVERY NEED.
One or two module buttons that can be customised and back-lit for a bespoke control system.

TRADITIONAL CONTROLS.
Different modularities and customisable symbols to indicate every function.

INFRARED CONTROLS.
To practically manage lighting and shutters with a special remote control.

AXIAL CONTROLS.
Reliability meets appearance, in this latest-generation technology which maintains the buttons aligned. Every control can be customised with screen-printed and back-lit symbols.

ARKÉ ILLUMINATES.

High-efficiency light sources, optimised for different uses: so lighting gets where it needs to be, with no waste. Automatic modular lights, step markers, warning lights and removable emergency lamps that light up in the event of a black out. Every device uses latest-generation LED specular transparent diffusers. For a truly brilliant performance.

STEP MARKER LAMPS.
LED devices that light up access routes, corridors and stairways.

WARNING LIGHTS.
To warn of an open gate, a light or other function left on.

TORCIA, REMOVABLE HAND LAMP.
A portable emergency light, that comes on instantly in the event of a black out.

LIGHTING FITTINGS.
High-efficiency light sources, in a range of modularities and dimmer functions to create the perfect atmosphere, every time. As well as emergency devices that come on in the event of a black out to guide you safely in the dark.

ARKÉ PROTECTS.

A precise, silent technology that watches over you and your home, day and night: detectors block and warn of gas leaks; intrusion alarms warn of any attempt to break in; interlocked sockets protect from accidental contacts, in the bathroom and the kitchen, and anywhere electrical devices are used frequently.

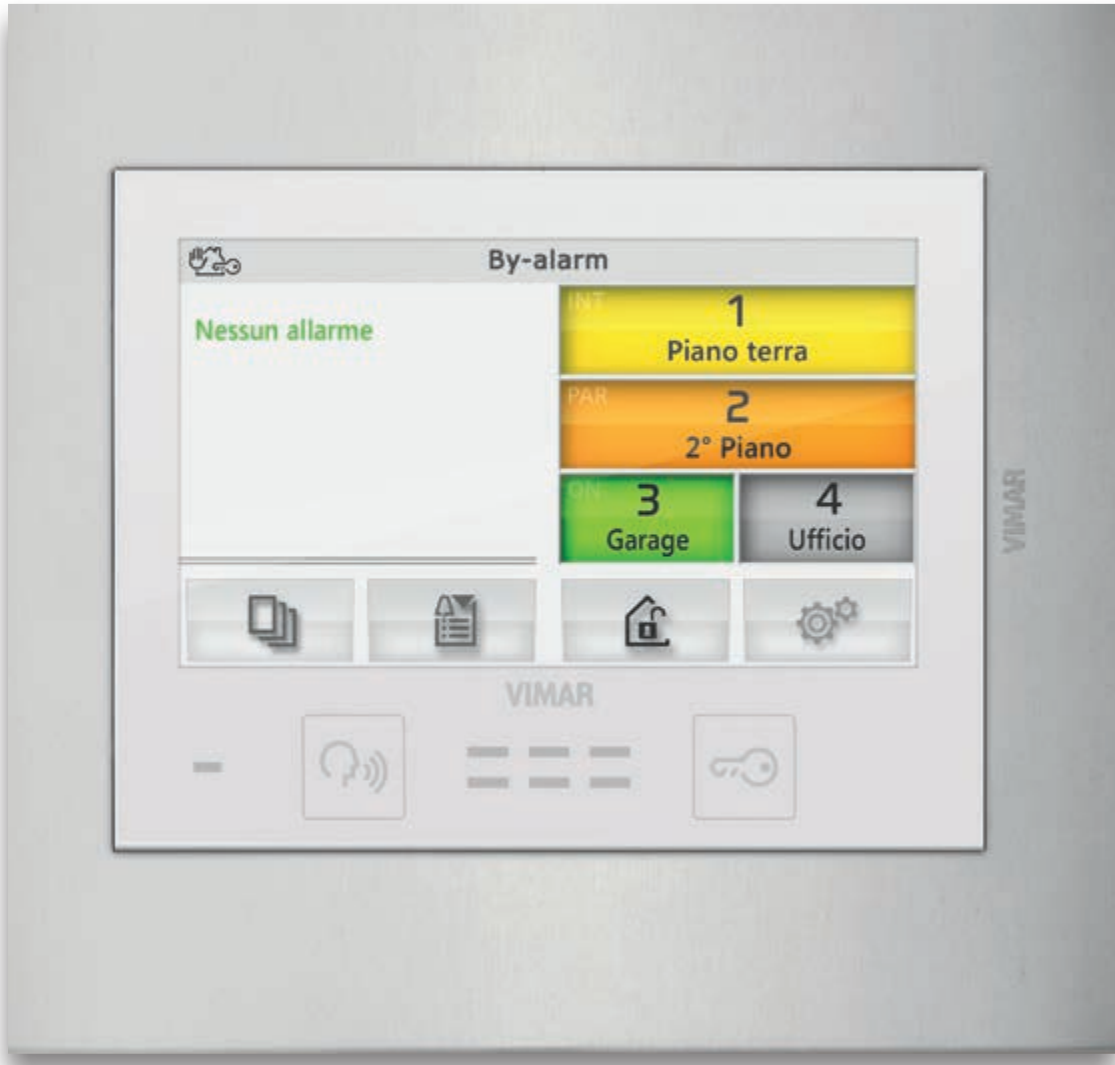

INTERLOCKED SOCKET.
Stops the power supply in the event of overvoltage, to protect you and your home.

GAS DETECTOR.
Hyper-sensitive to gas leaks: this technology reports them, blocks them and describes the fault.

PRESENCE DETECTOR.
Reveals anything moving in the room it is installed in.

BY-ALARM: BURGLAR ALARM SYSTEM.
Protecting spaces from intrusion, in both residential and small-scale business contexts (in particular commercial premises or offices), is now even easier and more intuitive. Stand-alone and expandable with a vast array of devices, the By-alarm system stands out due to its high performance levels and its connection with the user (via GSM or via IP) and surveillance bodies (via SIA and CONTACT-ID protocols).

ARKÉ SAVES.

Top comfort and energy savings: this is possible, with Arké. Universal dimmers adjust the intensity of LED and low consumption (CFL) lights to create the perfect atmosphere. Timer-thermostats and sensors are used to automatically or manually set the ideal temperature and other functions, to avoid waste. And the radio-frequency, wireless and battery-free technology allows the system to be extended with no brick work, adding new lighting points where you need.

TIMER-THERMOSTAT.
The temperature is programmed, supervised and modified quickly and easily, locally, centrally and remotely throughout the dwelling.

SENSORS.
The climate can be controlled in terms of temperature and humidity for a better energy awareness.

RADIO FREQUENCY.
For installing new devices, anywhere, even on wood or glass walls.

UNIVERSAL DIMMERS.
Used to adjust the brightness of even LED and low consumption (CFL) lights. So savings and the perfect atmosphere go hand in hand.

ARKÉ ENTERTAINS.

With music from the radio, your mp3, iPod or iPhone, diversified or the same in every room, to suit how you feel at the time. But also with a wide range of audio, video and USB inputs, allowing you to transmit the extraordinary multimedia performances of your home entertainment system in every room.

MULTIMEDIA SOCKETS.
To connect home entertainment devices, multiplying performance.

TV CONNECTORS.
From all over the world, audio, video and digital signals reach your home clearly.

SOUND SYSTEM SPEAKERS.
A system delivering high fidelity guaranteed by digital audio and superior quality speakers.

SOUND SYSTEM CONTROLS.
To control volume, music tracks and audio functions in every room.

ARKÉ COMMUNICATES.

Guests are welcomed elegantly by a modern video door entry system. The device lets you see who's outside the house on its colour display with its touch controls and clear, intuitive graphics.

HANDS-FREE DOOR ENTRY UNIT.
At a simple touch, the bi-directional call button lets you talk freely.

CALL BUTTON.
The bell rings to let you know there's someone at the door.

SELECTIVE CALL MICROPHONE.
A device ensuring communication between different rooms in the home.

VIDEO DOOR ENTRY UNIT.
Elegant, functional and simple to use, this device is used to welcome guests, always knowing who's at the door: the display shows the outside of the home, the touch controls allowing access.

Technology must
go hand in hand
with savings.

Home automation: optimised energy, simplified management.

Energy is precious, and we take increasingly more care over how we use it: we prefer technologies that reduce consumption. Arké, with the By-me home automation system, prevents energy waste and makes it easier and quicker to manage all the rooms in the home.

CONTROL AND COMFORT.

Coordinated functions create relaxing scenarios: lighting, climate, speaker system are all managed easily and in a customised manner.

SECURITY.

Technical and intrusion alarms: with By-me, everything is under control and serenity spreads throughout the home.

ENERGY SAVING.

Functions that allow you to monitor consumption in real time and have a precise picture of the energy profile of your home.

ARKÉ AND HOME AUTOMATION.

A concentration of intuitive technology used to create scenarios for lighting, climate, music, to control home appliances, shutters, security, energy savings and communication. Various actions coordinated by just one system: with a simple touch of the touch screen, you can supervise and manage all the functions. Fully customisable programmes that can also be managed remotely via the remote control from latest-generation smartphones and tablets.

Comfort

CLIMATE CONTROL.

Thermostats and electronic probes precisely control the temperature, managing both underfloor and fan-coil systems to ensure full comfort.

Energy efficiency

ENERGY MANAGEMENT.

Controlling loads and energy produced leads to greater awareness of energy efficiency.

Safety

ENVIRONMENTAL SAFETY.

Life at home is even safer, with technical alarms that signal any gas or water leaks and other faults and every load is controlled in order to switch off those as low priority so the appliances of the home are protected from power failures.

Intelligent and intuitive, By-me is the home automation system for the integrated management of all functions. Control, comfort, energy efficiency and safety dialogue constantly through a sophisticated and intuitive technology combining style and functionality with no compromises; optimising costs and consumptions, simply and intuitively managing all everyday activities from the smallest to the most important, helping to create a truly comfortable home.

Control

SUPERVISION.

All home functions, from climate control to lighting to the intrusion detection system and energy management, can be controlled centrally from a single control point, such as a touch screen with simple and intuitive interfaces.

EXTENDED COMMUNICATION.

A single system connecting all the home automations, from management and modify of individual functions via the elegant touch screens or via Web Server to stay in contact with your home even when you're away using smartphone, tablet or PC. And the protection of spaces from intrusion with By-alarm, the stand alone system that can be expanded and extended or integrated with the By-me home automation system by means of IP interface which guarantees a secure and protected connection, both locally and remotely via an internet connection. And to complete the system, the video door entry system that can communicate with the world outside your home.

WEB SERVER.

The home automation system is managed via the Internet from smartphones, PCs and tablets using the By-web and By-phone applications.

BY-ALARM.

By-alarm can be fully integrated with the By-me home automation system through the installation of an IP interface which guarantees a secure and protected connection, both locally and remotely via an internet connection. The functions can be controlled locally - using the touchscreen and the home automation commands and scenarios - or remotely, using the free By-web APP on a smartphone or tablet.

VIDEO DOOR ENTRY SYSTEM.

A device that easily synchronises with the By-me system to communicate with and supervise your home from a single work station.

A history with deep roots.

Light is energy... heat... life... in this direction we work since 1945, with passion and the desire to innovate. A long tradition and a history of success that over the years, has led us to be protagonist in Italy and present in the main international markets.

Design and technology.

Our products evolve with lifestyle thanks the special attention to modern living trends. This allows us to offer finishes, details that make our products items of interior design. Convinced that form and technology must live together, we dedicate time and energy on developing new projects of electronic and electrotechnical engineering and materials.

Made in Italy.

The heart of our company, where we create, design and manufacture our products, is in the North East of Italy because we believe in the Made in Italy in all its forms. From the materials to the shapes, the color matches to electronic processes, we are distinguished by a style and technology that speak our language all over the world.

Research and Development.

To ensure the best of technology and design, 6% of our annual turnover is invested in R&D. This has allowed us over the years to lodge more than 180 patents worldwide, reflecting the attention of the great innovation like the little details that make every day life more simple and comfortable.

Production quality and customer service.

Before leaving the factory, we test our products one by one. It is no coincidence that we deserved the most important quality certifications. And to ensure to our customers the best, we offer constant support before and after sales, following them at all stages of the relationship with services designed and calibrated to their needs.

Green Attitude.

We work with great care of the environment in all what we do, sure that only by protecting the world it will be possible to progress and grow in the future. Our manufacturing cycle is characterized by low environmental impact. We recycle 60% of the plastic material waste and most of the metal. We only use water-based paints or UV curing. We are replacing the electroplating bath with the innovative and more environmentally friendly MSD process that eliminates any type of harmful emissions.

All-round safety.

The safety of people is an absolute priority. This is why we want to create secure and comfortable environments, using high quality and user-friendly products that are the outcome of research targeting the common good. Like the SICURY shuttered mechanism, a patent system developed in 1968, which revolutionized the safety of power sockets, and which we licensed free of charge to all operators in the sector, so that the lives of children could be made safer and parents less worried.

A CULTURE BASED
ON **SOLID** AND
CLEAR VALUES.
