Kit Friends of Hue+plate EikonEvo white

Friends of Hue control device kit, contains: 1 switch 03906, 1 mounting frame 21507.B white, 2 buttons 20506.B white and 2-module Eikon Evo cover plate, total white 21642.17

- Batteries are not required: the power supply is self-generated on pressing the push button, which activates the internal electro-dynamic generator. This small fraction of energy is capable of activating the radio frequency wave
- You can also use it in wireless mode, by placing it on any surface whatsoever; no masonry work is required, making it ideal for renovations
- 1-way switch with dimmer function for the precise control of lamps or to retrieve light scenarios configured by the Philips Hue APP
- Wireless 1-way switch kit, controls the light scenarios of Friends of Hue light bulbs, using the Philips bridge
- Can also be used like a normal flush mounting 1-way switch on standard 2M supports or surface mounted

3 - Active
