- **Class group**: Measuring instruments and tester
- **Class**: Measuring instrument for temperature and climate
- **Indication**: None
- **Multiple display**: No
- **Thermal element type B**: No
- **Thermal element type E**: No
- **Thermal element type J**: No
- **Thermal element type K**: No
- **Thermal element type N**: No
- **Thermal element type R**: No
- **Thermal element type S**: No
- **Thermal element type T**: No
- **Thermal element RTD**: No
- **Measurement of differential temperature**: No
- **Measurement of relative air humidity**: Yes
- **Measured value memory**: No
- **Interface**: No
- **Separate sensor**: No
